

Proposed Strategies for Research and Evaluation

Fred Molitor, Ph.D.

Agenda Item 10
July 28, 2016

WELLNESS • RECOVERY • RESILIENCE

Supporting the Evaluation Master Plan

- Providing policy leadership in partnership with counties and stakeholders.
- Analysis of statewide data, development of county profiles, and responses to ad-hoc requests.
- Analysis of linked statewide service and outcome data to demonstrate program effectiveness.
- Assisting counties to turn practice-based or promising interventions into evidence-based interventions.
- Analogies between public health and mental health.

2

Example Activities

- Workshops and learning collaboratives.
- Case studies.
- Pilot studies.
- Stakeholder and county engagement.
