

Immigrant and/or Refugee Information Questions

The purpose of this survey is to ascertain the focus and work of organizations that are currently supporting Immigrant and/or Refugee populations with accessing mental health services, advocating on behalf of relevant mental health and wellness services, providing education and training, or conducting research and evaluation of the needs and services for Immigrants and/or Refugee populations.

Your responses will help inform the facilitation of a series of community events designed to support stakeholder advocacy funding on behalf of Immigrant and Refugee populations in California.

Electronic and in-person feedback will inform the process as we create an RFP for the Immigrant and Refugee population. A list of draft questions is included below. Please email responses to Angela Brand, MHSOAC Stakeholder Program Lead at: angela.brand@mhsoc.ca.gov.

	Question	Response
1	Which specific Immigrant and/or Refugee populations do you serve?	
2	Please tell us what your organization does to advocate for the mental health and wellness needs of Immigrants and/or Refugees.	
3	What age groups do you serve?	

4	What counties, regions, or areas of the state do you serve?	
5	How do you determine where service gaps may exist for Immigrants and/or Refugees you serve?	
6	What have you identified as the most pressing mental health needs for the specific Immigrants and/or Refugees populations you serve?	
7	What needs are being addressed by your organization?	
8	What are the specific outcomes you are working toward?	
9	What do you measure to determine the success of your approach?	

10	Do you collaborate with other organizations? If so, why are collaborative efforts used and what is the purpose of the collaboration?	
11	Please describe all of your outreach efforts and tell us which have been the most successful and why, and which have been the least successful and why.	
12	Please describe the barriers that exist to delivering effective mental health and wellness services in your area or region and tell us how you believe these barriers should be addressed	
13	What are the specific training and education needs for the Immigrant and/or Refugee populations you serve and the clinicians and community service providers who serve them?	
14	What would organizations who serve the Immigrant and/or Refugee populations do with additional funding?
