

County Name	Innovation Project Name	Commission Approval Date	Amount Approved	Project Description
Napa	FSP Multi-County Collaborative	10/13/2022	\$844,750.00	<p>Third Sector (the Contractor) will work collaboratively with the collaborating Counties by administratively guiding counties through development and implementation of sharing data driven strategies and providing critical technical assistance. This project is aimed at improving service delivery, operations, data collection, and FSP service evaluation. There will <u>NOT</u> be a disruption in FSP services; each contractor (Third Sector; CalMHSA and selected evaluators) will act in an administrative advisory capacity only. Participating counties will continue to provide FSP services throughout the duration of this project. The focus of this project is to develop a multi-county FSP innovation collaborative that uses data to better inform who FSP should serve, how they should be served, and what client outcome goals should be pursued in a consistent manner throughout the state.</p>
Tulare	Semi-Statewide Enterprise Health Record System Improvement	11/17/2022	\$6,281,021.00	<p>This is a two-phased Innovation project which seeks to make a change to an existing practice in the field of mental health, specifically, the practice of documentation of care provision. Tulare County will partner with CalMHSA on the Semi-Statewide Electronic Health Record (EHR) Project and multiple counties to affect local level system change by creating a more integrated, holistic approach to county health information technology collection, storage, and reporting, with the goal to increase the quality of mental health services, including measurable outcomes. The EHR Project hypothesizes that reducing the impacts of documentation will improve provider satisfaction, employee retention, and improve patient care and outcomes.</p>

Humboldt	Semi-Statewide Enterprise Health Record System Improvement	11/17/2022	\$608,678.00	<p>This is a two-phased Innovation project which seeks to make a change to an existing practice in the field of mental health, specifically, the practice of documentation of care provision. Counties will partner with CalMHSA on the Semi-Statewide Electronic Health Record (EHR) Project and multiple counties to affect local level system change by creating a more integrated, holistic approach to county health information technology collection, storage, and reporting, with the goal to increase the quality of mental health services, including measurable outcomes. The EHR Project hypothesizes that reducing the impacts of documentation will improve provider satisfaction, employee retention, and improve patient care and outcomes.</p>
Sonoma	Semi-Statewide Enterprise Health Record System Improvement	11/17/2022	\$4,420,447.54	<p>This is a two-phased Innovation project which seeks to make a change to an existing practice in the field of mental health, specifically, the practice of documentation of care provision. Counties will partner with CalMHSA on the Semi-Statewide Electronic Health Record (EHR) Project and multiple counties to affect local level system change by creating a more integrated, holistic approach to county health information technology collection, storage, and reporting, with the goal to increase the quality of mental health services, including measurable outcomes. The EHR Project hypothesizes that reducing the impacts of documentation will improve provider satisfaction, employee retention, and improve patient care and outcomes.</p>

Colusa	Practical Actions Towards Health (PATH) Formerly Social Determinants of Rural Mental Health - EXTENSION	11/18/2022	\$983,184.00	<p>This project proposes to examine and improve life factors and conditions for outreach to unserved community members with mental health needs, living in rural communities. The goal is to better understand and serve the non-medical influences that impact mental health outcomes in places where people live, learn, and work as well as how social, economic, and environmental factors effect and impact social determinates of mental health. The goal is whether and how a social determinants of health framework can improve county approaches to prevention, early intervention, and access.</p>
Sacramento	Behavioral Health Crisis Services Collaborative	1/4/2023	\$1,000,000.00	<p>This program will establish adult crisis stabilization and intensive mental health support services on a hospital campus (Mercy San Juan Medical Center) located in the underserved and high need northeastern section of Sacramento County. The primary purpose of this emergency care integration innovation project is to demonstrate improved behavioral health outcomes through a public/private collaboration that removes existing barriers to care, increases access to, and the quality and scope of, crisis stabilization and supportive mental health services that are integrated and coordinated. Project services, sited in the northern region of Sacramento County, will increase access to crisis services for underserved area residents.</p>

Imperial	Semi-Statewide Enterprise Health Record System Improvement	1/26/2023	\$2,974,849.00	<p>This is a two-phased Innovation project which seeks to make a change to an existing practice in the field of mental health, specifically, the practice of documentation of care provision. Counties will partner with CalMHSA on the Semi-Statewide Electronic Health Record (EHR) Project and multiple counties to affect local level system change by creating a more integrated, holistic approach to county health information technology collection, storage, and reporting, with the goal to increase the quality of mental health services, including measurable outcomes. The EHR Project hypothesizes that reducing the impacts of documentation will improve provider satisfaction, employee retention, and improve patient care and outcomes.</p>
Kings	Semi-Statewide Enterprise Health Record System Improvement	1/26/2023	\$3,203,101.78	<p>This is a two-phased Innovation project which seeks to make a change to an existing practice in the field of mental health, specifically, the practice of documentation of care provision. Counties will partner with CalMHSA on the Semi-Statewide Electronic Health Record (EHR) Project and multiple counties to affect local level system change by creating a more integrated, holistic approach to county health information technology collection, storage, and reporting, with the goal to increase the quality of mental health services, including measurable outcomes. The EHR Project hypothesizes that reducing the impacts of documentation will improve provider satisfaction, employee retention, and improve patient care and outcomes.</p>

Mono	Semi-Statewide Enterprise Health Record System Improvement	1/26/2023	\$986,402.89	<p>This is a two-phased Innovation project which seeks to make a change to an existing practice in the field of mental health, specifically, the practice of documentation of care provision. Counties will partner with CalMHSA on the Semi-Statewide Electronic Health Record (EHR) Project and multiple counties to affect local level system change by creating a more integrated, holistic approach to county health information technology collection, storage, and reporting, with the goal to increase the quality of mental health services, including measurable outcomes. The EHR Project hypothesizes that reducing the impacts of documentation will improve provider satisfaction, employee retention, and improve patient care and outcomes.</p>
Placer	Semi-Statewide Enterprise Health Record System Improvement	1/26/2023	\$4,562,393.00	<p>This is a two-phased Innovation project which seeks to make a change to an existing practice in the field of mental health, specifically, the practice of documentation of care provision. Counties will partner with CalMHSA on the Semi-Statewide Electronic Health Record (EHR) Project and multiple counties to affect local level system change by creating a more integrated, holistic approach to county health information technology collection, storage, and reporting, with the goal to increase the quality of mental health services, including measurable outcomes. The EHR Project hypothesizes that reducing the impacts of documentation will improve provider satisfaction, employee retention, and improve patient care and outcomes.</p>

San Benito	Semi-Statewide Enterprise Health Record System Improvement	1/26/2023	\$4,940,202.00	<p>This is a two-phased Innovation project which seeks to make a change to an existing practice in the field of mental health, specifically, the practice of documentation of care provision. Counties will partner with CalMHSA on the Semi-Statewide Electronic Health Record (EHR) Project and multiple counties to affect local level system change by creating a more integrated, holistic approach to county health information technology collection, storage, and reporting, with the goal to increase the quality of mental health services, including measurable outcomes. The EHR Project hypothesizes that reducing the impacts of documentation will improve provider satisfaction, employee retention, and improve patient care and outcomes.</p>
San Joaquin	Semi-Statewide Enterprise Health Record System Improvement	1/26/2023	\$8,748,140.00	<p>This is a two-phased Innovation project which seeks to make a change to an existing practice in the field of mental health, specifically, the practice of documentation of care provision. Counties will partner with CalMHSA on the Semi-Statewide Electronic Health Record (EHR) Project and multiple counties to affect local level system change by creating a more integrated, holistic approach to county health information technology collection, storage, and reporting, with the goal to increase the quality of mental health services, including measurable outcomes. The EHR Project hypothesizes that reducing the impacts of documentation will improve provider satisfaction, employee retention, and improve patient care and outcomes.</p>

Siskiyou	Semi-Statewide Enterprise Health Record System Improvement	1/26/2023	\$1,073,106.00	<p>This is a two-phased Innovation project which seeks to make a change to an existing practice in the field of mental health, specifically, the practice of documentation of care provision. Counties will partner with CalMHSA on the Semi-Statewide Electronic Health Record (EHR) Project and multiple counties to affect local level system change by creating a more integrated, holistic approach to county health information technology collection, storage, and reporting, with the goal to increase the quality of mental health services, including measurable outcomes. The EHR Project hypothesizes that reducing the impacts of documentation will improve provider satisfaction, employee retention, and improve patient care and outcomes.</p>
Ventura	Semi-Statewide Enterprise Health Record System Improvement	1/26/2023	\$3,514,910.00	<p>This is a two-phased Innovation project which seeks to make a change to an existing practice in the field of mental health, specifically, the practice of documentation of care provision. Counties will partner with CalMHSA on the Semi-Statewide Electronic Health Record (EHR) Project and multiple counties to affect local level system change by creating a more integrated, holistic approach to county health information technology collection, storage, and reporting, with the goal to increase the quality of mental health services, including measurable outcomes. The EHR Project hypothesizes that reducing the impacts of documentation will improve provider satisfaction, employee retention, and improve patient care and outcomes.</p>

San Mateo	Adult Residential In-home Support Element (ARISE)	2/23/2023	\$1,235,000.00	Increase housing retention by creating a model for residential in-home support services specifically designed for clients living with serious mental health challenges and/or substance use disorder (SUD) who are unlikely to be approved for state In Home Supportive Services (IHSS), or who would be underserved by IHSS, and who, without additional support, are at risk of losing their housing due to challenges with managing their housing environment.
San Mateo	Mobile Behavioral Health for Farmworkers	2/23/2023	\$1,815,000.00	Bring behavioral health and physical health services to farmworkers and their families, including children, through an outreach team and a mobile health bus that will be equipped to provide clinical, medical, and prenatal care. These services will also be provided in Spanish with the goal of supporting the farmworker community to engage in behavioral health services, supports, and resources.
San Mateo	Music Therapy for Asians and Asian Americans	2/23/2023	\$940,000.00	Bring music therapy (“a form of treatment that uses music within the therapeutic relationship to help accomplish the patient’s individualized goals”), as a treatment modality to Asians and Asian Americans to reduce stigma, increase literacy surrounding behavioral health, and promote referrals and linkages to behavioral health services. The County is hoping to learn if the use of music therapy is an effective outreach and engagement strategy for this target population.
San Mateo	Recovery Connection Drop-In Center	2/23/2023	\$2,840,000.00	Test the use of a peer support model by opening a culturally responsive, one stop center called Recovery Connection with a goal of increasing services that are recovery oriented through an approachable access point for individuals experiencing substance use and/or co-occurring substance use and mental health challenges.

Monterey	Residential Care Facility Incubator - EXTENSION TIME ONLY			Monterey County Behavioral Health (MCBH) is proposing a two-phased Innovation project that will seek out existing, motivated residential care facility operators interested in providing more culturally and linguistically responsive services, as well as engage new property owners interested in establishing new culturally and linguistically responsive residential care facilities. As a result of this project, MCBH will increase the availability of culturally and linguistically appropriate housing for the adult SMI population by repurposing residential and commercial properties to support residential care clients. In addition, existing residential care facilities that are struggling to operate and provide adequate services will be rejuvenated.
Contra Costa	Grants for Supporting Equity through Community Defined Practices	3/23/2023	\$6,119,182.00	Contra Costa County proposes to provide mini grants to community-based organizations and providers who align with the culture, belief, and values of the communities they serve, to increase engagement with mental health services for underserved communities, primarily communities of color.
Fresno	The Lodge - EXTENSION	4/27/2023	\$3,160,000.00	The intent of The Lodge is to gain insight through a pilot research project on what can enhance and increase engagement of individuals who are homeless or at risk for homelessness, with the onset of an early or severe or chronic mental illness, and who are not engaging in care due to being in pre-contemplation stage of change. Specifically, when an individual's basic needs are met in a safe setting, can trained peers utilize interventions such as motivational interviewing to engage individuals who have previously declined services?

Fresno	Participatory Action Research with Justice-Involved Youth Using an Adverse Childhood Experience (ACEs) Framework	4/27/2023	\$3,000,000.00	Utilizing the Adverse Childhood Experience (ACE) Framework and recognizing that ACE scores are positively correlated with justice involvement, Fresno County would like to partner with community agencies, institutions of higher learning, and justice-involved youth to conduct a research-based innovation project that is designed to collect data that will support the development of appropriate interventions for youth and prevent the future involvement of youth in the justice system.
Marin	From Housing to Healing - EXTENSION	4/11/2023	\$2,355,300.00	This project is healing-centered and holistic treatment for women with serious mental illness and potentially co-occurring substance use disorders who have been incarcerated or otherwise resided in a locked facility who have high Adverse Childhood Experiences (ACEs) scores
San Bernardino	Progressive Integrated Care Collaborative	5/23/2023	\$16,557,576.00	The County is proposing to establish a pilot clinical site that will provide behavioral and health care coordination for Medi-Cal enrollees. It is anticipated that this clinical site will be able to provide access to laboratory studies, electrocardiogram studies, data sharing, physical health specialist and establish new billing processes/payment models.
Tuolumne	Family Ties: Youth and Family Wellness	6/15/2023	\$925,891.04	Tuolumne County will work with their community to solicit feedback on the best and most appropriate use of nontraditional and alternative modalities of therapy for youth and their families to promote mental health wellness and decrease incidence of youth recidivism by allowing families to be an integral part of their youth's wellness, resiliency, and recovery.

San Diego	Public Behavioral Health Workforce Development and Retention Program	6/15/2023	\$75,000,000.00	<p>The County is proposing to test new approaches to recruit and retain employees within the County's public behavioral health system. Under this proposed innovation, the County would implement two types of financial incentive programs:</p> <ul style="list-style-type: none"> • Outcomes-Based Renewable Training and Tuition Fund • Upskilling to Meet Professional Need
